Berea, OH 44017

Re: Fairgrounds Wind Turbine Project

Dear Ms. Scudder:

Thank you for updating the Great Lakes Energy Development Task Force (GLEDTF) on the status of the Fairgrounds Wind Turbine Project. You've certainly made much progress during 2008.

As chairman of the Task Force, I fully support your efforts to install a wind turbine at the Fairgrounds. Shifting all Fairgrounds electricity usage to clean, wind-generated electricity will be a very positive event for the community.

We wish you success in your fundraising efforts. Your plans to create an educational venue for visitors to the Fairgrounds will educate people on the benefits of renewable energy.

Sincerely,

Bill Mason
Prosecuting Attorney
Chairman, GLEDTF
